Booster Coils

Cooling & Coil Solutions has one of the largest selections of stocked booster coils in the United States. With over 61 different sizes of pre-engineered coils, we can often ship your order **within 24 hours!** Our booster coils feature :

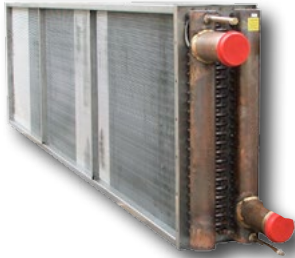

- Standard duct flanges or slip and drive casings
- Sizes ranging from 6" x 6" to 24" x 48"
- One or two rows deep
- 5/8" O.D. smooth wall copper tube
- Aluminum fins and galvanized casings

Fluid Coils

For both cooling and heating applications, Cooling & Coil Solutions can provide selections and drawings for all your fluid coil needs. We are a leader in the replacement coil market and pride ourselves in providing products to meet the customer's requirements!

- 3/8", 1/2", or 5/8" copper tubes
- Fin spacing from 4 FPI to 14 FPI
- Leak tested underwater

Steam Coils

From industrialized applications such as paper or process plants to a small boiler in your basement, steam coils can become a part of everyday life. At Cooling & Coil Solutions, we can provide standard steam or steam distributing coils to meet almost any application.

- 5/8" or 1" copper tubes
- 16-gauge G-90 galvanized sheet steel casing
- Tube pitched in casing or non pitched
- Fin spacing from 4 FPI to 14 FPI
- Leak tested underwater

Evaporator & Condenser Coils

Cooling & Coil Solutions truly understands the many factors surrounding a proper coil application. From critical fin spacing to utilizing today's new refrigerants, we have the expertise and capabilities to exceed your requirements. Our DX coils are available with single or multiple circuiting for condensing or heat reclaim applications, making us a one stop shop for all of your coil needs.

Industrial Coils

Cooling & Coil Solutions provides a wide variety of industrial coils to withstand the rigors of your unique needs. Our industrial coils are leak tested underwater and provide a high quality coil designed for easy maintenance, low operating costs, and longevity. We can provide coils suitable for water, glycol, ammonia, and oil. Additionally, we can build refrigerant coils and steam coils for high pressures. Cooling & Coil Solutions can now meet all of your Industrial Coil requirements!
